

DIG THIS ACADEMY

HEAVY EQUIPMENT OPERATOR CERTIFICATION PROGRAMS

WHAT IS DIG THIS ACADEMY

Dig This Academy (est 2022) is a division of Dig This Las Vegas (est 2007). Conveniently located in Las Vegas, with easy access from all over the country, Dig This Academy is offering Heavy Equipment Operator Level One certification (4-Week Course) through the National Center for Construction Education and Research (NCCER) and 4 Heavy Equipment Operator Ready Certificate Programs (1-Week Course). Our programs are facilitated by qualified journeyman and NCCER certified instructors. All programs are state certified by the Nevada Commission on Post-Secondary Education (CPE).

WHY DIG THIS ACADEMY?

Dig This Academy is determined to offer only the best in training practices to jump start your career as a heavy equipment operator. Our programs will give you experience on a specific piece of equipment such as an excavator, backhoe, bulldozer or loader. You will also have the chance to meet industry professionals on off-site visits to working construction sites and heavy equipment dealerships.

APPLICATION/ADMISSIONS

- Applicants must be at least 18 years old
- Have a drivers license
- Have a High School Diploma or GED
- Be mentally and physically capable of safely operating equipment

FUNDING OPTIONS

Given the relatively low cost of our programs, lending institutions are not a good fit for both you and Dig This Academy. If you cannot afford the total cost at registration, we can discuss a payment plan. Dig This Academy is actively looking at tuition assistance through State, Federal and Construction Association channels and will assist students in need as these funds become available.

JOB PLACEMENT

Dig This Academy is building relationships with key employers and could potentially match you for the right job opportunity*. We will assist you with job interview skills, resume preparation and job search techniques.

TRAINING PROGRAMS

HEAVY EQUIPMENT OPERATOR READY CERTIFICATE PROGRAM

This 1-week certificate of completion course is designed to provide safety, knowledge and basic information, along with hands-on structured concentration on a specified type of heavy equipment. Upon completion of this program trainees will have the basic knowledge and experience to enter the workforce as an entry level operator. Equipment courses currently available: Excavators, Dozers, Backhoes & Loaders

\$3,800/1-week Program

* Dig This Academy cannot guarantee employment, career advancement or any particular earnings/pay.

This Academy endorses the certification programs offered by the National Center for Construction Education and Research (NCCER)

OTHER PROGRAMS

HEAVY EQUIPMENT OPERATOR INTRO

If you have never operated heavy equipment before and are considering a career as a heavy equipment operator, then try our 3 hour orientation program on a backhoe, 6-Ton excavator, and skid steer loader. If you like what you experienced and want to move forward with our training program, the cost will be deducted from the enrollment fees.

\$500/3-hour Program

ABOUT NCCER

NATIONAL CENTER FOR CONSTRUCTION AND EDUCATION RESEARCH

NCCER was developed with the support of more than 125 construction CEOs & various association & academic leaders who united to revolutionize training for the construction industry.

Sharing the common goal of developing a safe & productive workforce, these companies created a standardized training & credentialing program for the industry.

CONTRACTORS... HIRING A NEW OPERATOR?

Hiring a new operator, no matter what their experience, can be challenging if you cannot see first hand what they can do. Dig This Academy can be part of the interview process and put these potential hires through a series of exercises designed to meet your requirements. A small investment for the right hire! If your operators need to be state certified, consider our Heavy Equipment Operator Ready Certificate Program in Excavators, Dozers, Backhoes or Loaders.
