ATTENDANCE POLICY

DIG THIS ACADEMY expects students to attend all regularly scheduled classes for instruction and examination. When a student is compelled, for any reason, to be absent from class, the student should immediately convey the reason for the absence directly to the instructor. The student is responsible for all material presented in class and for all announcements and assignments. DIG THIS ACADEMY offers programs of varying length and intensities. For our on-site programs, you will sign-in each morning with your instructor(s). All students are expected to be on time for class each morning, and prompt in their return from lunch. Since a majority of the course is hands-on work with heavy equipment and students work with partners, promptness is particularly important.

DIG THIS ACADEMY wants to see every student succeed and will work with students missing classes to the best of our abilities. The decision to permit students to 'make-up' work that is required in any missed class due to extenuating circumstances resides at the discretion of the instructor &/or academic director. Extenuating circumstances for absence include: hazardous weather conditions, personal hardship, extended illness or hospitalization, family emergencies, or death in the immediate family. Instructors may request documentation to verify the extenuating circumstances. Students who are absent because of illness (Covid-19, influenza, etc.) will be afforded the opportunity to make up missed classes if/when they return to full health and are cleared by a medical professional to return to class.

SUSPENSION & DISMISSAL - A student is only suspended for extreme behavior. Suspensions occur if a student arrives at school under the influence of drugs or alcohol, or in instances for disregard for the safety of themselves and/ or others. Any incident is handled on an individual basis. Repeated offenses may result in dismissal. Reasons for dismissal include the second violation for a suspension, and a required meeting between the student and the Director, and funding agency (if applicable). Reasons for dismissal include arriving at class under the influence of drugs or alcohol, or extreme safety violations. If a student fails to return or is dismissed, his/her tuition is refunded on a prorated basis, as described in the Refund Policy section. To be readmitted, a dismissed student must reapply, explain in writing how his/her behavior will be different this time, and sign a new Student Enrollment Agreement.
